

Marketing Campaign Performance Dashboard

Customers	Total Revenue	Average Spend	Purchases	Conv Rate
2240	1356988	605.80	33291	15%

Insight: High-income & senior customers drive revenue. Store channel dominates. Campaign 4 has highest conversion.

Customer Segment Analysis

High-income customers contribute the most revenue. Senior customers contribute more total revenue due to volume. Young customers spend more per transaction on average.

Channel Performance

Store channel dominates total purchases, indicating strong offline purchasing behavior. Web channel is the second strongest, showing significant digital adoption, while catalog and deal-based purchases play a secondary role in the customer journey.

Campaign Performance

Campaign 4 has the highest acceptance rate (167 acceptances), making it the most successful campaign in terms of customer response. Campaigns 3 and 5 also perform strongly, with similar high acceptance levels (163 each), showing consistent engagement across these campaigns. Campaign 1 shows moderate performance (144 acceptances), while Campaign 2 has the lowest acceptance (30), indicating weak customer response and low campaign effectiveness.

Customer Value (VIP Analysis)

High-value customers show long tenure and consistent engagement

Income VS Spend Analysis

Higher income leads to higher spending.

Final Insights and Recommendations
